

This project had to point out the need of improving the Road Safety Consciousness in micro level for youths community and in macro level for their country. The project is important for all youths and partners based on:

A)Annually youths and adults are involved in road accidents. There is lack of education and/or respect of RTR

B)Recent European status report from EUROSTAT, shows the following data: There have been about 25000 deaths from RA in 2017 in EU, which is equal to 50 deaths/million persons..

C)Reckless Road Attitude is primarily the reason that provokes so many serious traffic accidents. Youths feel that they should contribute to this unfortunate situation.

D)Partners' countries (Bulgaria,Romania, Greece,Lithuania, Poland, Croatia) rank in top 10 list with highest rate of RA in the Europe

E) Direct consequences: According to WHO, Road traffic injuries are the leading cause of death for children and young adults aged 5 -29 years

Partners:

- Network for European Citizenship and Identity Cyprus,
- Asociatia MasterPeace Romania,
- Association of Ruse in help for society and young people Bulgaria,
- UdruzenjePREVENT Serbia,
 - Meraki Croatia,
 - Mano Europa Lithuania
- United Societies of Balkans Greece,
- Fundacja Youth Act Poland

This Is
The Road
To Life

OUR EXPERIENCE

Throughout this project I improved my skills on socialising, cooperating, public speaking, critical thinking and reflection. I learned different information about the history, culture, habits and situation of the countries attending. What I mostly enjoyed was the intercultural nights, trying different traditional food and drinks, dances and games. Also, hiking in beautiful Cyprus was an amazing experience, exploring the beautiful nature and bringing us all together as a team.

Eirini Kelidou Greek Team

If one day, I will be in power to participate in drafting future laws regarding road safety in Croatia, I will for sure use the knowledge I gained on this project.

Tomi Miladinović Croatian Team

This is the first time i am participating in an erasmus+ project. I never thought that this kind of experience could give to someone such beautiful feelings, especially this project.

Robert Romanian Team

I found these discussions and activities very useful in nowadays as from now on i know how to behave in the road carefully and how to avoid situations which might have really tragic repercussions. I really enjoyed the international groups as i found a lot new and shocking facts about the situation in the roads which, probably, would never happen in my country.

Julija minelgaite

Lithuanian team

I will do thanks the organization NECI for the opportunity to participate to this project. It was one of the most inspiring days of my life. Road Safety is a very interesting topic

Cypriot Team

I had an amazing opportunity to participate in youth exchange called 'Road to Safety' in Cyprus. I met amazing people from Greece, Bulgaria, Lithuania, Romania, Serbia, Croatia, Cyprus and Poland. I got a lot of information about topic of the project. I had a chance to work in my national group as well as in mixed country group which helped me be more creative and taught how to cooperate with others. I would really like to have an opportunity to repeat this project in the very near future. I am sure I could increase my awareness and knowledge about safety on roads if I had a chance to participate again

Maja Polish Team
